* *For identification purposes only*

LETTER FROM THE BOARD

The Company proposes to raise approximately HK\$189 million, before expenses, by way of Open Offer of 1,574,878,250 Offer Shares at the Subscription Price of HK\$0.12 per Offer Share on the basis of five (5) Offer Shares for every one (1) Existing Share held on the Record Date. The Open Offer will not be extended to the Prohibited Shareholders.

The Open Offer will be fully underwritten by the Underwriter on the terms and subject to the conditions of the Underwriting Agreement, details of which are set out in the section headed “Underwriting Arrangement” in this circular. The Underwriting Agreement contains provisions granting the Underwriter the right, which may be exercised at any time prior to 4:00 p.m. on Monday, 14 April 2014, being the third Business Day after the Latest Time for Acceptance, to terminate the Underwriting Agreement on the occurrence of certain events. If the Underwriter terminates the Underwriting Agreement, the Open Offer will not proceed.

In addition to the Open Offer, the Company also proposed to seek a refreshment of the Existing General Mandate. Under the Existing General Mandate granted by the Shareholders at the 2013 annual general meeting of the Company held on 28 November 2013, the Directors were authorised to allot and issue up to 52,497,130 Shares. As at the Latest Practicable Date, the Existing General Mandate has been utilised as to 52,490,000 Shares, representing approximately 20.0% of the issued share capital of the Company as at the date the Existing General Mandate was approved.

In order to provide a flexible means for the Company to raise further funds through the issue of new Shares for its future business development, the Board proposes to seek a refreshment of the Existing General Mandate at the SGM for the Directors to allot and issue new Shares not exceeding 20% of the issued share capital of the Company as at the date of the SGM.

The purpose of this circular is to provide you with, among other things, (i) further details of the Open Offer; (ii) further details of the grant of the Issue Mandate; (iii) a letter of recommendation from the Independent Board Committee of the Company to the independent Shareholders in respect of the Open Offer and the Issue Mandate; (iv) a letter of advice from the Independent Financial Adviser to the Independent Board Committee of the Company and the independent Shareholders on the Open Offer and the Issue Mandate; and (v) a notice convening the SGM.

PROPOSED OPEN OFFER

The Company proposes to raise approximately HK\$189 million, before expenses, by way of Open Offer of 1,574,878,250 Offer Shares at the Subscription Price of HK\$0.12 per Offer Share on the basis of five (5) Offer Shares for every one (1) Existing Share held on the Record Date. The details are set out as follows:

Issue Statistics

Basis of the Open Offer:	five (5) Offer Shares for every one (1) Existing Share held on the Record Date
Subscription Price:	HK\$0.12 per Offer Share

LETTER FROM THE BOARD

Number of Shares in issue as at the Latest Practicable Date:	314,975,650 Shares
Number of Offer Shares:	1,574,878,250 Offer Shares
Number of Offer Shares underwritten by the Underwriter:	All the Offer Shares, being 1,574,878,250 Offer Shares. The aggregate nominal value of the Offer Shares is HK\$15,748,782.50
Number of Shares in issue upon completion of the Open Offer:	1,889,853,900 Shares

As at the Latest Practicable Date, the Company does not have any outstanding convertible note, warrant, option, derivative or other securities convertible into or exchangeable for any Share. The Company has no intention to issue or grant any warrants, options and/or convertible securities on or before the Record Date.

Based on the above, a total of 1,574,878,250 Offer Shares will be issued upon the completion of the Open Offer, which represents 500% of the Company's issued share capital as at the Latest Practicable Date and approximately 83.33% of the Company's issued share capital as enlarged by the issue of the Offer Shares.

Subscription Price

The Subscription Price is HK\$0.12 per Offer Share, payable in full upon application. The Subscription Price represents:

- (i) a discount of approximately 66.67% to the closing price of HK\$0.360 per Share as quoted on Stock Exchange on the Last Trading Day;
- (ii) a discount of approximately 66.76% to the average of the closing prices of approximately HK\$0.361 per Share for the last five consecutive trading days including and up to the Last Trading Day;
- (iii) a discount of 25.00% to the theoretical ex-entitlement price of approximately HK\$0.160 per Share after the Open Offer, based on the closing price of HK\$0.360 per Share as quoted on the Stock Exchange on the Last Trading Day;
- (iv) a discount of approximately 94.34% to the consolidated net tangible asset per Share of approximately HK\$2.120 as at 30 June 2013 based on the consolidated net tangible assets attributable to owners of the Company as at 30 June 2013 and divided by the number of Shares in issue as at the Latest Practicable Date; and
- (v) a discount of approximately 47.37% to the closing price of HK\$0.228 per Share as quoted on Stock Exchange on the Latest Practicable Date.

LETTER FROM THE BOARD

The Subscription Price was determined after arm's length negotiation between the Company and the Underwriter with reference to, among other things, the prevailing market price of the Shares, the financial position of the Group, the absence of excess application arrangement to Shareholders and having considered the development of the parcel of land situated on the Santai Industrial Zone and the future business development of the Group as detailed under the section headed "Reasons for the Open Offer and use of proceeds" in this circular.

The Directors noted the relatively high subscription ratio of the Open Offer, the relatively deep discount to the net tangible assets per Share as at 30 June 2013, and the discount to market price. In order to increase the attractiveness of the Open Offer to encourage the Qualifying Shareholders to take up their own entitlement, the Directors (including the independent non-executive Directors after taking into account the advice of the Independent Financial Adviser) consider that the potential dilution and proposed discounts of the Subscription Price to the market prices and net tangible assets of the Group as at 30 June 2013 to be fair and reasonable, provided that: (i) the Open Offer would provide the required funds to the Group for future development and enhance its existing operation; (ii) the Open Offer could strengthen the capital base of the Group; (iii) the Open Offer is determined on the basis that all Qualifying Shareholders have been offered the same opportunity to maintain their proportional interests in the Company and allows the Qualifying Shareholders to participate in the growth of the Company; (iv) the inherent dilutive nature of open offer in general if the existing Shareholder did not take up his/her/its entitlements under the Open Offer; and (v) the Open Offer is offered with a deeper discount to the Subscription Price to Qualifying Shareholders would encourage them to participate in the Open Offer and to participate in the future development and future growth of the Company, we consider the possible dilution effect on the Independent Shareholders and the discount to be fair and reasonable. Each Qualifying Shareholder is entitled to subscribe for the Offer Shares at the same price in proportion to his/her/its existing shareholding in the Company. The Directors (including the independent non-executive Directors after taking into account the advice of the Independent Financial Adviser) consider that the Subscription Price, which has been set at a relatively deep discount as described above to reflect, among others, the absence of the excess application arrangement to Shareholders with an objective to lower the further investment cost of Shareholders to encourage them to take up their entitlements and to participate in the potential growth and future development of the Group, to be fair and reasonable and in the interest of the Company and the Shareholders as a whole. For further details please refer to the paragraph headed "No application for excess Offer Shares" in this letter from the Board.

As the estimated net proceeds from the Open Offer will be approximately HK\$183 million, assuming no further issue of new Shares on or before the Record Date, the net price per Offer Share will be approximately HK\$0.116.

Qualifying Shareholders

The Open Offer is only available to the Qualifying Shareholders and will not be extended to the Prohibited Shareholders. The Company will send the Prospectus Documents to the Qualifying Shareholders. To qualify for the Open Offer, the Shareholders must at the close of business on the Record Date:

- (i) be registered on the register of members of the Company; and

LETTER FROM THE BOARD

(ii) not be the Prohibited Shareholders.

The address of the Registrar is at Tricor Securities Limited, 26th Floor, Tesbury Centre, 28 Queen's Road East, Wanchai, Hong Kong.

Rights of the Overseas Shareholders

If, at the close of business on the Record Date, a Shareholder's address on the register of members of the Company is in a place outside Hong Kong, that Shareholder may not be eligible to take part in the Open Offer as the Prospectus Documents will not be registered and/or filed under the applicable securities legislation of any jurisdictions other than Hong Kong.

Based on the register of members of the Company as at the Latest Practicable Date, the Company had 3 Overseas Shareholders whose addresses are in Canada, the PRC and Singapore respectively with an aggregate shareholding of less than 0.0001% of the total issued share capital of the Company.

The Company will comply with Rule 13.36(2)(a) of the Listing Rules and make enquiries regarding the feasibility of extending the Open Offer to such Overseas Shareholders. If, based on such enquiries, the Directors consider that it is necessary or expedient not to offer the Offer Shares to such Overseas Shareholders on account either of the legal restrictions under the laws of the places of their registered address or the requirements of the relevant regulatory body or stock exchange in those places, the Directors will exercise the discretion given to them under the bye-laws of the Company to exclude such Overseas Shareholders from the Open Offer and the Prohibited Shareholder will not be invited to participate in the Open Offer. Further information regarding the feasibility of extending the Open Offer to the Overseas Shareholders as at the Record Date will be set out in the Prospectus to be despatched to the Shareholders on the Prospectus Posting Date.

The Company will send the Overseas Letter together with the Prospectus, for information only, to the Prohibited Shareholders. The entitlements of the Prohibited Shareholders under the Open Offer will be taken up by the Underwriter. However, so long as the Prohibited Shareholders are independent Shareholders, they are entitled to cast their votes on all resolutions at the SGM.

Closure of register of members

The register of members of the Company will be closed from Tuesday, 11 March 2014 to Thursday, 13 March 2014, both dates inclusive, to determine the eligibility of the Shareholders to vote at the SGM. There will be no odd lot arrangement in relation to and as a result of the Open Offer.

Certificates of the Offer Shares and refund cheques

Subject to fulfillment of the conditions of the Open Offer, certificates for the fully-paid Offer Shares are expected to be despatched on or before Wednesday, 16 April 2014 to those entitled thereto by ordinary post at their own risk. If the Open Offer is terminated, refund cheques are expected to be despatched on or before Wednesday, 16 April 2014 by ordinary post at the respective Shareholders' own risk.

No application for excess Offer Shares

After arm's length negotiation with the Underwriter, the Board has decided that the Qualifying Shareholders will not be entitled to subscribe for any Offer Shares in excess of their respective assured entitlements. Given that each Qualifying Shareholder will be given equal and fair opportunity to participate in the Open Offer, the Board considers that it will put in additional effort and costs (which is estimated to be approximately HK\$200,000 to HK\$500,000) to administer the excess application procedures, which is not cost effective from the viewpoint of the Company. Notwithstanding excess application arrangement will not be made available to Qualifying Shareholders, the Board considers that a deeper discount to the Subscription Price offered to Qualifying Shareholders would encourage them to participate in the Open Offer and to participate in the future development and future growth of the Company. Any Offer Shares not taken up by the Qualifying Shareholders will be taken up by the Underwriter pursuant to the terms of the Underwriting Agreement.

LETTER FROM THE BOARD

Notwithstanding the absence of the excess application arrangement which may prevent certain Qualifying Shareholders who wish to take up additional Offer Shares in excess of their assured entitlements, the Company considers that the aforesaid should be balanced against the fact that the terms of the Open Offer are structured with an intention to encourage all the Qualifying Shareholders to take up their respective assured allotment of the Offer Shares as the Subscription Price is set at a deep discount to the prevailing market price of the Shares which provides reasonable incentives to all the Qualifying Shareholders to participate in the Open Offer. On this basis, the Company considers that the absence of the excess application arrangement is acceptable.

Pursuant to the Underwriting Agreement, the Underwriter has conditionally agreed to subscribe or procure subscription for the Offer Shares which have not been taken up by the Qualifying Shareholders.

Application for listing

The Company will apply to the Listing Committee of the Stock Exchange for the listing of, and permission to deal in, the Offer Shares.

No part of the securities of the Company is listed or dealt in or on which listing or permission to deal is being or is proposed to be sought on any other stock exchange. Subject to the granting of the listing of, and permission to deal in, the Offer Shares on the Stock Exchange, the Offer Shares will be accepted as eligible securities by HKSCC for deposit, clearance and settlement in CCASS with effect from the commencement date of dealings in the Offer Shares on the Stock Exchange or such other date as determined by HKSCC. Settlement of transactions between participants of the Stock Exchange on any trading day is required to take place in CCASS on the second trading day thereafter. All activities under CCASS are subject to the General Rules of CCASS and CCASS Operational Procedures in effect from time to time.

All necessary arrangements will be made to enable the Offer Shares to be admitted into CCASS.

Dealings in the Offer Shares (in board lots of 5,000 each) will be subject to the payment of stamp duty, Stock Exchange trading fee, transaction levy, or any other applicable fees and charges in Hong Kong.

REASONS FOR THE OPEN OFFER AND USE OF PROCEEDS

The Group is principally engaged in the manufacturing and trading of cables and wires for use in household electrical appliances and electronic products, copper products and mining business.

As disclosed in the annual report of the Company for the year ended 30 June 2013, the acquisition of Santai Industrial Zone, with an area of approximately 72,000 sq.m., in Changping Town, Dongguan City, by the Group was completed in the year 2012 and the property has been held for lease and generates steady rental income for the Group. According to the management of the Company, as at the Latest Practicable Date, the rental income of Santai Industrial Zone was approximately RMB500,000 per month (or approximately HK\$640,000 per month or HK\$7.7 million per year). In light of the "Three Olds Reform" scheme implemented by the People's Government of Guangdong Province aiming to transform old towns, old factories and old villages to accompany the rapid economic and social development, the Group intends to transform the Santai Industrial Zone under the "Three Olds Reform" scheme. It is planned that the nature of the Santai Industrial Zone will be changed from industrial to commercial and residential after the transformation. It is expected that the area will become a small, hustle and bustle commercial and residential district with a touch of tranquility in the long run.

In addition, the Company intends to renovate two existing factories owned by the Group in Changping Town, Dongguan City in the PRC. Currently, the travel distance between the two factories is about 5 to 10 minutes by car. The two factories are engaging in manufacturing of cable and wires

LETTER FROM THE BOARD

and copper products respectively. In order to facilitate the future development of the Group, the Board intends to host the two manufacturing facilities in one location, the other factory premises will be vacant and renovated for rental purpose. The Board considers that said transformation of land use nature and the renovation of two existing factories will maximize the return of the Group's land resources and increase the potential value of the Group's factory space and increase the production efficiency of the Group.

The Board confirmed that, as at the Latest Practicable Date, the application for the "Three Olds Reform" scheme has been submitted to the relevant regulatory body and pending for process and approval, and the concrete development plan of the Santai Industrial Zone is yet to be finalised, as to whether it will be wholly-developed by the Group or by joint venture or others. Appropriate announcement will be made as and when appropriate in accordance with the Listing Rules.

It is intended that the gross proceeds from the Open Offer will be approximately HK\$189 million. It is intended that the estimated net proceeds, after deducting the underwriting commission of 2.5% on gross proceeds and other expenses in connection with the Open Offer, are approximately HK\$183 million which are intended to be used as to: (i) approximately HK\$40 million for the developing the parcel of land situated on the Santai Industrial Zone from industrial to commercial and residential use, which costs including, but not limited to, the initial development preparation, survey, design fee and public facilities and infrastructure fee payable to the relevant regulatory bodies for the proposed transformation; (ii) approximately HK\$30 million for renovation of two factories owned by the Group in Changping Town, Dongguan City; (iii) approximately HK\$60 million for the repayment of short term loans; and (iv) the remaining proceeds of approximately HK\$53 million for general working capital of the Group.

The Board has also considered other fund raising alternatives before resolving to the Open Offer, including but not limited to bank borrowings, share placement and rights issue. In the view that borrowings would result in additional interest burden and higher gearing ratio of the Group, share placement may necessarily dilute the shareholding in the Company of the existing Shareholders, rights issue will involve extra administrative work and cost for the trading arrangements in relation to the nil-paid rights, the Board considers raising funds by way of the Open Offer is more cost effective and efficient, the Open Offer also allows the Group to strengthen its balance sheet without facing the increasing interest rates. The Board considers that the Open Offer is in the interest of the Company and the Shareholders as a whole as it offers all the Qualifying Shareholders an equal opportunity to participate in the enlargement of the capital base of the Company and enables the Qualifying Shareholders to maintain their proportionate interests in the Company and continue to participate in the future development of the Company should they wish to do so. However, those Qualifying Shareholders who do not take up the Offer Shares to which they are entitled should note that their shareholdings in the Company will be diluted.

In view of the above, the Directors (including the independent non-executive Directors after taking into account the advice of the Independent Financial Adviser) consider that the Open Offer is fair and reasonable and in the interests of the Company and the Shareholders as a whole having taken into account the terms of the Open Offer.

WARNING OF THE RISK OF DEALINGS IN THE SHARES

Shareholders and potential investors should note that the Open Offer is conditional upon the Underwriting Agreement having become unconditional and the Underwriter not having terminated the Underwriting Agreement in accordance with the terms thereof. Accordingly, the Open Offer may or may not proceed.

LETTER FROM THE BOARD

Shareholders and potential investors should exercise extreme caution when dealing in the Shares, and if they are in any doubt about their position, they should consult their professional advisers.

Shareholders should note that, based on the expected timetable of the Open Offer, the Shares will be dealt in on an ex-entitlement basis commencing from Monday, 17 March 2014 and that dealing in Shares will take place while the conditions to which the Underwriting Agreement is subject remain unfulfilled. Any Shareholder or other person dealing in Shares up to the date on which all conditions to which the Open Offer is subject are fulfilled (which is expected to be on Monday, 14 April 2014), will accordingly bear the risk that the Open Offer cannot become unconditional and may not proceed. Any Shareholder or other person contemplating selling or purchasing Shares, who is in any doubt about his/her/its position, is recommended to consult his/her/its own professional adviser.

The Underwriter shall also use its best endeavours to ensure that each of the subscribers of the Untaken Shares procured by it (i) shall be an Independent Third Party and not acting in concert (within the meaning of the Takeovers Code) with and not connected with the Company, any of the Directors or

PROPOSED REFRESHMENT OF GENERAL MANDATE TO ALLOT AND ISSUE SHARES

At the 2013 annual general meeting of the Company held on 28 November 2013, the Shareholders approved, among other things, an ordinary resolution to grant to the Directors the Existing General Mandate to allot and issue up to 52,497,130 Shares, which is equivalent to 20% of the issued share capital of the Company as at the date the Existing General Mandate was approved.

As at the Latest Practicable Date, the Existing General Mandate has been utilised as to 52,490,000 Shares, representing approximately 99.99% of the Existing General Mandate, pursuant to the placing of Shares at the placing price of HK\$0.32 per Share completed on 17 December 2013 raising net proceeds of approximately HK\$16.2 million which was intended to be used for general working capital of the Group.

The Company has not made any refreshment of the Existing General Mandate since the annual general meeting of the Company held on 28 November 2013.

As mentioned in the paragraph headed “Reasons for the Open Offer and use of proceeds” in this letter from the Board, the Group intends to develop the Santai Industrial Zone from industrial use to commercial and residential use, for which a concrete development plan of the area after transformation is yet to be finalized as at the Latest Practicable Date. Should the Board thinks fit, it may further develop the area by itself or by way of joint venture or others. In order to have the flexibility to raise additional capital by issue of new Shares for the Group’s future developments as and when needed in a promptly manner, the Board wishes to seek approval from the Shareholders at the SGM to grant the Issue Mandate for the Directors to allot and issue new Shares up to 20% of the issued share capital of the Company as at the date of the SGM.

As at the Latest Practicable Date, the existing authorised share capital of the Company consists of 50,000,000,000 Shares out of which 314,975,650 Shares are issued and fully paid up. On the basis of 314,975,650 Shares in issue as at the Latest Practicable Date and assuming that no further Shares are issued or repurchased on or prior to the date of SGM, subject to the passing of the relevant ordinary resolution to approve the Issue Mandate at the SGM, the Directors will be authorised to allot and issue up to a limit of 62,995,130 Shares under the Issue Mandate.

The Issue Mandate, if granted, will remain effective until the earliest of (i) the conclusion of the next annual general meeting of the Company; (ii) the date by which the next annual general meeting is required to be held; and (iii) the date upon which such authority is revoked or varied by an ordinary resolution of the Shareholders in a general meeting of the Company.

The Directors (including the independent non-executive Directors after taking into account the advice of the Independent Financial Adviser) consider that the Issue Mandate will enhance the flexibility for the Company to manage its business and therefore the Issue Mandate is fair and reasonable and the granting of the Issue Mandate is in the interests of the Company and the Shareholders as a whole.

INTRODUCTION

We refer to our appointment to advise the Independent Board Committee and the independent Shareholder in respect of the Open Offer and the refreshment of general mandate to allot and issue shares, details of which are set out in the section headed “Letter from the Board” (the “**Board Letter**”) in the Company’s circular dated 25 February 2014 to the Shareholders (the “**Circular**”), of which this letter forms part. Our appointment as the Independent Financial Adviser has been approved by the Independent Board Committee. Terms used in this letter shall have the same meanings as defined in the Circular unless the context requires otherwise.

On 21 January 2014, the Company announced, among other things, that the Company proposed to raise approximately HK\$189 million before expenses, by issuing 1,574,878,250 Offer Shares to the Qualifying Shareholders by way of an Open Offer at the Subscription Price of HK\$0.12 per Offer Share on the basis of five (5) Offer Shares for every one (1) Existing Share held on the Record Date and payable in full on acceptance. The Open Offer is fully underwritten by the Underwriter and there is no application for excess Offer Shares, i.e. the Qualifying Shareholders will not be entitled to subscribe for any Offer Shares in excess of their respective assured entitlements. The terms of the Open Offer are agreed after arm’s length negotiation between the Company and the Underwriter.

As the proposed Open Offer will increase the issued share capital or the market capitalization of the Company by more than 50%, the Open Offer is subject to the approval of the independent Shareholders. Pursuant to Rule 7.24(5) of the Listing Rules, any controlling Shareholders and their associates or, where there are no controlling Shareholders, the Directors (excluding the independent non-executive Directors) and the chief executive of the Company and their respective associates shall

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

abstain from voting in favour of the resolutions relating to the Open Offer. As at the Latest Practicable Date, there is no controlling Shareholder and none of the Directors (excluding the independent non-executive Directors), the chief executive of the Company or their respective associates hold any Share in the Company.

As at the Latest Practicable Date, only a further 7,130 Shares could be issued under the Existing General Mandate which was granted by the Shareholders to the Directors at the annual general meeting of the Company held on 28 November 2013 (“AGM”) after the completion of the placing of the Shares as set out in the Company’s announcement dated 17 December 2013 (the “Placing Announcement”). Therefore, the Board proposes to seek approval of the independent Shareholders for the grant of the Issue Mandate such that the Directors will be granted the authority to allot, issue and deal with new Shares not exceeding 20% of the total issued share capital of the Company as at the date of passing the relevant resolution at the SGM. Pursuant to Rule 13.36(4) of the Listing Rules, the granting of the Issue Mandate requires the approval of the independent Shareholders at the SGM at which any of the controlling Shareholders and their associates or, where there are no controlling Shareholders, the Directors (excluding the independent non-executive Directors), the chief executive of the Company and their respective associates are required to abstain from voting in favour of the resolution proposed for the approval of such grant, and under Rule 13.39 of the Listing Rules, any vote of the shareholders at the general meeting must be taken by way of poll. As at the Latest Practicable Date, there is no controlling Shareholder and none of the Directors and their respective associates hold any Shares in the Company.

Accordingly, save for the Underwriter who is required to abstain from voting at the SGM on the resolution relating to the Open Offer, none of the persons are required to abstain from voting at the SGM. Should any of the Directors (excluding independent non-executive Directors) and their respective associates hold any interest in the Shares at the date of the SGM, they will be required to abstain from voting in favour of the relevant resolutions.

The Independent Board Committee comprising Mr. Chung Kam Kwong, Mr. Lo Wai Ming and Mr. Lo Chao Ming (all being independent non-executive Directors) has been established to advise the independent Shareholders as to whether the terms of the Open Offer and the Issue Mandate are fair and reasonable and are in the interests of the Company and the Shareholders as a whole, and to advise the independent Shareholders on how to vote, taking into account the recommendations of the Independent Financial Adviser. We, Nuada Limited, have been appointed as the Independent Financial Adviser to advise the Independent Board Committee and the independent Shareholders in this respect.

A. OPEN OFFER

PRINCIPAL FACTORS AND REASON CONSIDERED

In arriving at our recommendation in relation to the terms of the Open Offer, we have considered the following principal factors and reasons:

Background information and outlook of the Group

The main business of the Group is manufacturing cables and wires, copper rods and copper wires and related product. The Group has also engaged in mining business since 2010.

The table below summarised the financial results of the Group for the two years ended 30 June 2013 as extracted from the annual report for the year ended 30 June 2013 of the Company (the “**Annual Report**”).

	For the year ended	
	30 June	
	2013	2012
	HK\$'000	HK\$'000
Turnover	601,611	612,863
Loss for the year attributable to owners of the Company	(415,071)	(106,132)

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

As shown above, we note that the total turnover has decreased by 1.8% from approximately HK\$612.8 million in 2012 to approximately HK\$601.6 million in 2013. The significant increase in the loss for the year attributable to owners of the Company from approximately HK\$106.1 million in 2012 to approximately HK\$415.1 million in 2013 was mainly due to an impairment loss on mining right to conduct mining activities in the location of Nergui, Delgerkhangai soum, Dundgonbi aimag, the State of Mongolia of approximately HK\$360.6 million.

Reason for Open Offer

Upon the full subscription of the Offer Shares and assuming no further Shares will be allotted and issued from the date hereof to the Record Date, the Company will receive gross proceeds of approximately HK\$189 million. The net proceeds under the Open Offer are expected to amount to approximately HK\$183 million (after deducting the underwriting commission of 2.5% on gross proceeds and other expenses in connection with the Open Offer).

As stated in the Board Letter, the net proceeds from the Open Offer are intended to be used as to: (i) approximately HK\$40 million for the developing a parcel of land situated at Qiao Zi Lu, Qiao Zi Village, Changping Town, Dongguan City, the PRC with a site area of 72,292 square meters (the “**Santai Industrial Zone**”) from industrial to commercial and residential use, which costs including, but not limited to, the initial development preparation, survey, design fee and public facilities and infrastructure fee payable to the relevant regulatory bodies for the proposed transformation; (ii) approximately HK\$30 million for renovation of two factories owned by the Group in Changping Town, Dongguan City; (iii) approximately HK\$60 million for the repayment of short term loans; and (iv) the remaining proceeds of approximately HK\$53 million for general working capital of the Group.

As advised by the Directors, it is the Group’s current strategy to improve the Group’s financial performance through cost control of existing business and increase its rental income by leasing out the Group’s vacant property.

According to the Annual Report, the Group owned certain interests in land, factories and residential units in Mainland China. According to the management of the Company, as at the Latest Practicable Date, the Group owned several pieces of land with factories building in Changping Town, Dongguan City. Among which, the acquisition of Santai Industrial Zone, an industrial complex located at Qiao Zi Lu, Qiao Zi Village, Changping Town, Dongguan City, the PRC with a site area of 72,292 square meters. The aforesaid acquisition was completed in June 2012 and the property has been held for lease and generates steady rental income for the Group since the completion of the acquisition. According to the management of the Company, as at the Latest Practicable Date, the rental income generated from the Santai Industrial Zone was approximately RMB500,000 per month (approximately HK\$640,000 per month and approximately HK\$7.7 million per year) and its occupancy rate has reached above 90% as at 31 December 2013. According to the amount of the rental income and the consideration for the acquisition of the Santai Industrial Zone of approximately HK\$52.7 million as stated in the Company’s announcement dated 12 December 2011, the annual rate of return of the rental income is approximately 14.6%.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

In order to maximize the return of the Group's land resources, increase the potential value of the Group's vacant factory space and increase the production efficiency, the management of the Company intends to i) transform the Santai Industrial Zone under the "Three Olds Reform" Scheme ("舊城鎮、舊廠房、舊村莊改造工作") from industrial usage to commercial and residential usage (the "**Land Use Conversion**") and develop the aforesaid land to commercial and residential building; and (ii) relocate the production base for manufacturing of cable and wires from Dongguan Qiaozi Chau's Electrical Co Ltd ("**Chau's**") to production base in Dongguan Hua Yi Brass Products Co Ltd ("**Hua Yi**").

Santai Industrial Zone

According to the website of Department of Land and Resources of Guangdong Province ("廣東省國土資源廳"), the aims of Three Olds Reform is to increase the land supply to solve the problem of land shortage and improve the quality of the living environment through the redevelopment of the old town, old factories and old village in Guangdong Province.

According to the website of statistic and information of Dongguan City ("東莞市統計調查信息網"), the average selling price of residential property located in Changping Town increased from approximately RMB6776 per square meter in December 2011 to approximately RMB7186 per square meter in December 2013. The area transacted for residential property in Dongguan City increased from approximately 5.98 million square meter in year 2012 to approximately 7.54 million square meter in year 2013, represented an increase of approximately 26.1%. The value of gross domestic product of Dongguan City increased from approximately RMB473.5 billion in year 2011 to approximately RMB501.0 billion in year 2012 and that of the value for the first nine months ended 30 September 2013 was approximately RMB389.0 billion. The purchasing power of people in Dongguan City increased in the past few years. The dollar amount of retail value of consumer goods increased from approximately RMB126.6 billion in year 2011 to approximately RMB148.7 billion in year 2013.

According to the management of the Company, the application for Land Use Conversion has been submitted and is still in the process as at the Latest Practicable Date. According to the management, approximately RMB31.4 million will be used mainly for the survey and design fee and public facilities and infrastructure fee payable to relevant government authorities upon completion of application of Land Use Conversion.

We consider that there are uncertainties associated with the future prospect of the Santai Industrial Zone. The Directors are of the view that upon Land Use Conversion, the Santai Industrial Zone will have great potential and bring positive impact to the Group. However, there is uncertainty in relation to the Land Use Conversion as it is subject to the approval of the PRC government. Also, if the Group decides to develop the Santai Industrial Zone after the approval of the Land Use Conversion, the development of the Santai Industrial Zone is subject to the relevant development costs (e.g. the land premium (補地價) (which is determined by the PRC government and may be substantial in amount) and construction cost) which may be satisfied by internal resources or other fund raising exercise.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

Since we cannot predict whether the aforesaid uncertainties would occur or not, we are not able to opine on it. Accordingly we would like to point out the potential uncertainties associated with the Santai Industrial Zone to the independent Shareholders as stated above.

However, given (i) the recent rising trend of the property market in Dongguan City (ii) the government policy to enhance the land reform in Dongguan City; and (iii) the recent economic development in Dongguan City, we are of the view and concur with the view of the Directors that the Land Use Conversion is justifiable.

According to the management of the Company, in case the application for the Land Use Conversion is refused by the PRC government, the Company would retain the existing usage of Santai Industrial Zone and the Company would use the proceeds from the Open Offer to renovate the existing building structure of Santai Industrial Zone as the buildings structure aged over 20 years.

Relocation of production base

As stated above, in order to maximize the return of the Group's land resources, increase the potential value of the Group's vacant factory space and increase the production efficiency, the management of the Company intends to relocate the production base for manufacturing of cable and wires from Chau's to Hua Yi. According to the management of the Company, the cost for relocation is approximately HK\$30 million which are mainly (i) the renovation fee for Chau's for leasing; and (ii) the renovation fee for Hua Yi to install production facilities from Chau's.

Based on (i) the occupancy rate of Santai Industrial Zone has reached over 90% as at 31 December 2013; (ii) the economic performance of Dongguan City experienced a rising trend in the past few years; (iii) rental income generated from the lease of Santai Industrial Zone provided a steady income to the Group; (iv) the relocation of production base from two production base into one production base can save the administration and transportation cost and increase the production efficiency and increase the potential value of the Group's vacant factory space, we are of the view and concur with the view of the Directors that the relocation of production base is justifiable.

Repayment of short term bank loans

According to the information provided by the management of the Company, as at the Latest Practicable Date, the amount of short term bank loans (to be payable within one year) is approximately RMB70 million (equivalent to approximately HK\$89.5 million), with interest rate ranged from approximately 5.99% to 7.00%. In order to reduce the finance costs of the Group, the Company intends to repay part of the aforesaid bank loans (i.e. approximately HK\$60 million) on time by part of the proceeds from Open Offer.

Given that the reduction of finance cost can improve the profitability of the Group, we are of the view and concur with the view of the Directors that the repayment of short term bank loans is justifiable.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

Based on the above, we are of the view and concur with the view of the Directors, the use of proceeds of Open Offer is in line with the Group's current strategy to improve the Group's financial performance through cost control of existing business and increase its rental income by leasing out the Group's vacant property.

Principal terms of the Open Offer

Basis of the Open Offer

The Company proposes to raise approximately HK\$189 million, before expenses, by way of Open Offer of 1,574,878,250 Offer Shares at the Subscription Price of HK\$0.12 per Offer Share on the basis of five (5) Offer Shares for every one (1) Existing Share held on the Record Date.

Subscription Price

The Subscription Price is HK\$0.12 per Offer Share, payable in full upon application. The Subscription Price represents:

- (i) a discount of approximately 66.67% to the closing price of HK\$0.36 per Share as quoted on the Stock Exchange on the Last Trading Day;
- (ii) a discount of approximately 66.76% to the average of the closing price of approximately HK\$0.361 per Share for the last five consecutive trading days including and up to the Last Trading Day;
- (iii) a discount of 25.00% to the theoretical ex-entitlement price of approximately HK\$0.160 per Share after the Open Offer, based on the closing price of HK\$0.360 per Share as quoted on the Stock Exchange on the Last Trading Day; and
- (iv) a discount of approximately 94.34% to the consolidated net tangible asset per Share of approximately HK\$2.120 as at 30 June 2013 based on the consolidated net tangible assets attributable to owners of the Company as at 30 June 2013 and divided by the number of Shares in issue as at the Latest Practicable Date.

The Subscription Price was determined after arm's length negotiation between the Company and the Underwriter with reference to, among other things, the prevailing market price of the Shares, the financial position of the Group and having considered the development of the parcel of land situated on the Santai Industrial Zone, we are advised by the Directors that they would like to set the Subscription Price at a level that would attract the Qualifying Shareholders to participate in the Open Offer.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

In order to assess the fairness and reasonableness of the Subscription Price, we have reviewed the trading price of the Shares for the period from 21 January 2013, being the 12-month period prior to the date of the Underwriting Agreement, up to and including the date of the Underwriting Agreement (the “**Review Period**”). The chart below illustrates the daily closing price of the Shares versus the Subscription Price from 21 January 2013 to the Latest Practicable Date:

During the Review Period, the highest closing and the lowest closing prices of the Shares were HK\$0.66 on 1 November 2013 and HK\$0.34 on 11 July 2013, 16 July 2013 and 17 July 2013, respectively. The Subscription Price is less than the highest and lowest closing prices during the Review Period, representing a discount of approximately 81.82% and 64.71% to such highest and lowest closing prices of the Share during the Review Period. Besides, we note that there was a general downward trend in the trading price of the Shares from the beginning of the year, even though there was a bloom between October 2013 and November 2013, the performance of the Share price is still moving downward.

Having considered that (i) the Open Offer would provide the required funds to the Group for future development and enhance its existing operation and to reduce financial burden as stated above; (ii) the Open Offer would strengthen the capital base of the Group; (iii) the continued unsatisfactory financial and Share price performance in 2013; (iv) the Open Offer is determined on the basis that all Qualifying Shareholders have been offered the same opportunity to maintain their proportional interests in the Company and allows the Qualifying Shareholders to participate in the growth of the Company; (v) the inherent dilutive nature of Open Offer in general if the existing Shareholder did not take up his/her/its entitlements under the Open Offer; and (vi) the Open Offer is offered with a deeper discount to the Subscription Price to Qualifying Shareholders would encourage them to participate the Open Offer and to participate in the future development and future growth of the Company, we consider it is fair and reasonable for the Company to conduct the Open Offer and inevitable to set the Subscription Price at a higher discount to the prevailing market price of the Shares and the consolidated net tangible asset of the Group per Share so as to increase the attractiveness of the Open Offer.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

Underwriting Commission

The underwriting commission, after arm's length negotiation between the Company and the Underwriter, is 2.5% of the aggregate Subscription Price in respect of the maximum number of Offer Shares underwritten by the Underwriter.

We have reviewed all the open offers announced by the Hong Kong listed companies in the previous three months before the date of the Underwriting Agreement which were posted on the website of the Stock Exchange and identified twelve open offers announced in these three months period and noted that the range of the underwriting commission of the aforesaid open offers is from nil to 3.5%.

Since the selected period of 3 months (i) has covered the prevailing market conditions and sentiments in the Hong Kong stock market; (ii) represented the recent structure of open offers as accepted by the other equity underwriters in Hong Kong; and (iii) can allow the Shareholders to have general understanding in other circumstances of the open offer transactions, we consider that the selected period is adequate.

The underwriting commission of the Underwriting Agreement is within the range of the aforesaid twelve open offers. Based on the above, we are of the view and concur with the view of the Directors that the underwriting commission of the Underwriting Agreement is fair and reasonable.

Excess Application

There is no arrangement for the Qualifying Shareholders to apply for any Offer Shares which are in excess of his/her/its entitlement, however we note that the Company has set the Subscription Price at a considerable discount to the prevailing market price of the Shares so as to encourage the Qualifying Shareholders, who are positive to the future development of the Company, to exercise its rights to subscribe for the Offer Shares.

We consider that the absence of the excess application arrangement may not be desirable from the point of view of those Qualifying Shareholders who wish to take up additional Offer Shares in excess of their assured entitlements. However, we consider that the aforesaid should be balanced against the fact that (i) the terms of the Open Offer are structured with an intention to encourage all the Qualifying Shareholders to take up their respective assured allotment of the Offer Shares as the Subscription Price is set at a deep discount to the prevailing market price of the Shares which provides reasonable incentives to all the Qualifying Shareholders to participate in the Open Offer; (ii) the nil excess application would lower the administrative costs of the Open Offer to the Company, which is estimated to be approximately HK\$200,000 to HK\$500,000; and (iii) the absence of excess application arrangement for the Offer Shares is subject to approval by the Independent Shareholder at the SGM. As such, it is reasonable to expect that the majority of the Qualifying Shareholders who are positive about the business plans of the Company as stated above will apply for the Offer Shares and the Offer Shares available for excess application will be minimal. The absence of excess application arrangement therefore may not be considered material to the Qualifying Shareholders.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

In view of the above, although it is beneficial to have excess application for the Qualifying Shareholders who wish to take up additional Offer Shares, we consider that the Open Offer has already enable the Qualifying Shareholders to maintain their proportionate interests in the Company should they so wish by applying the Offer Shares according to their shareholding in the Company, which we consider to be fair and reasonable. Therefore, the absence of the excess application arrangement is acceptable.

Potential dilution effect on the interests of the independent Shareholders.

Upon completion of the Open Offer, 1,574,878,250 Shares will be issued. Qualifying Shareholders who elect to subscribe for in full their assured entitlements under the Open Offer will retain their current shareholding in the Company and their investments in the Company. Qualifying Shareholders who do not elect to subscribe for in full their assured entitlements under the Open Offer will be diluted after completion of the Open Offer by a maximum of approximately 83.3% in terms of shareholding interests and approximately 82.1% in terms of shareholding interests and approximately 78.6% in terms of net tangible assets of the Group per Share (the net tangible assets of the Group per Share as at 30 June 2013 and adjusted by the placing of the Shares in aggregate number of 127,490,000 Shares minus the pro forma net tangible asset per Share as stated in Appendix II of the Circular divided by the net tangible assets of the Group per Share as at 30 June 2013 and adjusted by the placing of the Shares in aggregate number of 127,490,000).

However, we consider such scenario of maximum dilution is unlikely to occur since it assumes that the independent Shareholders have voted in favour of the Open Offer at the SGM which is a complete misalignment between the voting behaviour of the independent Shareholders and their subscription for the Open Offer.

Despite the dilution effect by the Open Offer of a maximum of approximately 83.3% and approximately 82.1% in terms of shareholding interests and approximately 78.6% in terms of net tangible assets of the Group per Share (the net tangible assets of the Group per Share as at 30 June 2013 and adjusted by the placing of the Shares in aggregate number of 127,490,000 minus the pro forma net tangible asset per Share as stated in Appendix II of the Circular divided by the net tangible assets of the Group per Share as at 30 June 2013 and adjusted by the placing of the Shares in aggregate number of 127,490,000) if the Qualifying Shareholders do not elect to subscribe for in full their assured entitlements under the Open Offer having taken into account: (i) the Open Offer would provide the required funds to the Group for future development and enhance its existing operation and to reduce financial burden as stated above; (ii) the Open Offer would strengthen the capital base of the Group; (iii) the continued unsatisfactory financial and Share price performance in 2013; (iv) the Open Offer is determined on the basis that all Qualifying Shareholders have been offered the same opportunity to maintain their proportional interests in the Company and allows the Qualifying Shareholders to participate in the growth of the Company; (v) the inherent dilutive nature of Open Offer in general if the existing Shareholder did not take up his/her/its entitlements under the Open Offer; and (vi) the Open Offer is offered with a deeper discount to the Subscription Price to Qualifying Shareholders would encourage them to participate the Open Offer and to participate in the future development and future growth of the Company, we consider the possible dilution effect on the independent Shareholders to be acceptable.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

Financial effect of the Open Offer

Net tangible asset

According to the unaudited pro forma financial information of the Group (the “**Pro Forma Financial Information**”) set out in Appendix II to the Circular, the audited consolidated net tangible assets attributable to owners of the Company as at 30 June 2013 was approximately HK\$667.7 million. The unaudited pro forma adjusted consolidated net tangible assets attributable to owners of the Company would increase to approximately HK\$850.6 million upon completion of the Open Offer.

Upon completion of the Open Offer, the unaudited pro forma adjusted consolidated net tangible assets attributable to owners of the Company per Share as at 30 June 2013 would decrease from approximately HK\$3.56 to approximately HK\$0.48.

Recommendation

Taking into account the factors and reasons as mentioned under the section headed “Principal factors and reasons considered” above, which including:

- (i) background information and outlook of the Group;
- (ii) the Open Offer would provide the required funds to the Group for investment and future development and would strength the capital base of the Group;
- (iii) the Subscription Price is fair and reasonable;
- (iv) the underwriting commission of the Open Offer is fair and reasonable;
- (v) the absence of the excess application arrangement is acceptable; and
- (vi) the financial effect to the Open Offer,

we consider that, on balance, the Open Offer and the Underwriting Agreement, which are not in the Company’s ordinary and usual course of business, are on normal commercial term, fair and reasonable so far as the independent Shareholders are concerned and the Open Offer and the entering of the Underwriting Agreement is in the interests of the Company and the independent Shareholders as a whole and would advise the Independent Board Committee to recommend to the independent Shareholder to vote in favour of the resolution to approve the Open Offer and the Underwriting Agreement to be proposed at the SGM and we recommend the independent Shareholders to vote in favour of the ordinary resolution in this regard at the SGM.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

B. REFRESHMENT OF EXISTING GENERAL MANDATE

PRINCIPAL FACTORS AND REASONS CONSIDERED

In arriving at our opinion in respect of the grant of the Issue Mandate, we have taken into consideration the following principal factors and reasons:

Background information of the grant of the Issue Mandate

The main business of the Group is manufacturing cables and wires, copper rods and copper wires and related product. The Group has also engaged in mining business since 2010.

The Directors were authorised to allot and issue up to 52,497,130 new Shares under the Existing General Mandate which was granted to the Directors at the AGM.

As set out in the Placing Announcement, an aggregate of 52,490,000 new Shares (the “**Placing Shares**”) were issued under the Existing General Mandate (the “**Placing**”). Since all of the Placing Shares were issued under the Existing General Mandate, the Existing General Mandate has been substantially utilized to the extent that only 7,130 Shares remain issuable under the Existing General Mandate as at the Latest Practicable Date.

Given that the Existing General Mandate has been substantially utilized as a result of the Placing, the Board proposes to seek approval of the independent Shareholders for the proposed grant of the Issue Mandate such that the Directors will be granted the authority to allot, issue and deal with new Shares not exceeding 20% of the total issued share capital of the Company as at the date of passing the relevant resolution at the SGM.

As at the Latest Practicable Date, the Company had 314,975,650 Shares in issue. On the basis that no Share would be issued be/or repurchased by the Company, no share option of the Company would be exercised from the Latest Practicable Date up to the date of the SGM, the Issue Mandate would allow the Directors to allot, issue and deal with up to 62,995,130 new Shares, representing 20% of the total issued share capital of the Company as at the date of the SGM.

Reasons for the proposed grant of the Issue Mandate

With reference to the Board Letter, the Board would like to provide flexibility for the Company to manage its business.

Given that equity financing (i) does not incur any interest expenses on the Group as compared with bank financing; (ii) is less costly and time-consuming than raising funds by way of rights issue or open offer; and (iii) provides the Company with the capability to capture any capital raising and/or prospective investment opportunity as and when it arises, we are of the view and concur with the view of the Directors that the grant of Issue Mandate for the Directors to allot, issue and deal with new Shares with an aggregate nominal amount of not exceeding 20% of the aggregate nominal amount of the issued share capital of the Company as at the date of the SGM is justifiable.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

Fund raising activities in the past twelve months

Set out below are the fund raising activities conducted by the Company in the past twelve months prior to the Latest Practicable Date according to the Directors:

Date of announcement	Capital raising activity	Net proceeds raised (approximately)	Proposed use of proceeds	Actual use of the net proceeds
9 December 2013	Placing of 52,490,000 new Shares under general mandate	HK\$16.2 million	Approximately HK\$16.2 million for general working capital of the Group	Approximately HK\$14.2 million has been utilized as intended and approximately HK\$2 million is currently deposited at the bank
27 May 2013	Placing of 75,000,000 new Shares under specific mandate	HK\$21.7 million	— Approximately HK\$12 million for plant and machinery and working capital of the new production lines of the Group; and — approximately HK\$9.7 million for repayment of trust receipt loans of the Group	Fully utilized as intended
7 March 2013	Placing of 31,240,000 new Shares under general mandate	HK\$12.0 million	Approximately HK\$12.0 million for general working capital and repayment of trust receipt loan of the Group	Fully utilized as intended

Apart from the aforesaid fund raising activities, the Company announced to raise approximately HK\$183 million (after expense) by the Open Offer on 21 January 2014.

Flexibility in financing

As advised by the Directors, the Group does not obviate the possibilities of further issuing capital should there be investor(s) indicating interests in the business of the Company in the future although there were no such investors as at the Latest Practicable Date. As further advised by the Directors, the Company did not have any plan to utilize the Issue Mandate as at the Latest Practicable Date.

As discussed in the foregoing, we consider that the grant of Issue Mandate would provide the Company with the necessary flexibility to fulfil any possible funding needs for future business development and/or investment decisions although the Company did not have any plan to utilize the Issue Mandate as at the Latest Practicable Date. In addition, the proceeds from the Open Offer would

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

be utilized for developing the Company's business plans as stated in the section headed "Reason for the Open Offer" above. The grant of Issue Mandate would provide the Company with the flexibility as allowed under the Listing Rules to allot and issue new Shares for equity fund raising activities, such as placing of new Shares, or as consideration for potential investments in the future as and when such opportunities arise. Furthermore, the additional amount of equity which may be raised after the grant of Issue Mandate would provide the Group with more financing options when assessing and negotiating potential investments in a timely manner. Given the financial flexibility available to the Company as discussed above, we are of the opinion that the grant of Issue Mandate is in the interests of the Company and the Shareholders as a whole.

Other financing alternatives

We have enquired into the Directors and the Directors confirmed that apart from equity financing, the Group will also consider debt financing, such as bank borrowings, to be other possible fund raising alternatives available to the Group. However, the Directors are of the view that the ability of the Group to obtain bank borrowings usually depends on the Group's financial position and the then prevailing market condition. Furthermore, such alternative may be subject to lengthy due diligence and negotiations with banks. Given that debt financing will usually incur interest burden on the Group, the Directors consider debt financing to be relatively uncertain and time-consuming as compared to equity financing, such as placing of new Shares, for the Group to obtain additional funding.

The Directors confirmed that they would exercise due and careful consideration when choosing the best financing method available to the Group. With this being the case, along with the fact that the grant of Issue Mandate will provide the Company an additional alternative and it is reasonable for the Company to have the flexibility in deciding the financing methods for its future business development, we are of the view that the grant of Issue Mandate is in the interests of the Company and the Shareholders as a whole.

Potential dilution to shareholding of the existing public Shareholders

The table below sets out the shareholding structure of the Company (i) as at the Latest Practicable Date; and (ii) upon full utilization of the Issue Mandate (assuming that no other Shares are issued and/or repurchased by the Company from the Latest Practicable Date up to the date on which the Issue Mandate (if granted) is exercised in full):

	Shareholding in the Company as at the Latest Practicable Date		Shareholding in the Company upon full utilization of the Issue Mandate	
	<i>Number of Shares</i>	<i>%</i>	<i>Number of Shares</i>	<i>%</i>
Public Shareholders	314,975,650	100.00	314,975,650	83.33
Shares to be issued under the Issue Mandate	—	—	62,995,130	16.67
Total	314,975,650	100.00	377,970,780	100.00

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

The table above illustrates that the shareholdings of the existing public Shareholders would decrease from approximately 100.00% as at the Latest Practicable Date to approximately 83.33% upon full utilization of the Issue Mandate (assuming that no other Shares are issued and/or repurchased by the Company from the Latest Practicable Date up to the date on which the Issue Mandate (if granted) is exercised in full). Such potential dilution to shareholdings of the existing public Shareholders represents a dilution of approximately 16.67%.

Taking into account that the grant of the Issue Mandate (i) would provide an alternative to increase the amount of capital which may be raised under the Issue Mandate; (ii) would provide more options of financing to the Group for further development of its business as well as in other potential future investments as and when such opportunities arise; (iii) the shareholding interests of all the Shareholders in the Company will be diluted in proportion to their respective shareholdings upon any utilisation of the Issue Mandate, we are of the opinion that the potential dilution of the shareholdings of the existing public Shareholders as just mentioned is justifiable.

RECOMMENDATION

Having taken into consideration the factors and reasons as stated above, we are of the opinion that the proposed grant of the Issue Mandate is fair and reasonable so far as the independent Shareholders are concerned and is in the interests of the Company and the independent Shareholders as a whole. Accordingly, we recommend the Independent Board Committee to advise the independent Shareholders to vote in favour of the ordinary resolution to be proposed at the SGM to approve the proposed grant of the Issue Mandate and we recommend the independent Shareholders to vote in favour of the ordinary resolution in this regard.

Yours faithfully,
For and on behalf of
Nuada Limited

The said annual reports of the Company are available on the Company's website at www.1166hk.com and the website of the Stock Exchange at www.hkexnews.hk.

2. INDEBTEDNESS STATEMENT

As at the close of business on 31 December 2013, being the latest practicable date for the purpose of this statement of indebtedness prior to the printing of this circular, the Group had total outstanding borrowings of approximately HK\$123,704,000, comprising secured bank loans and secured trust receipt loans of approximately HK\$89,652,000 and HK\$33,812,000 respectively, and obligations under finance leases of approximately HK\$240,000.

The Group's certain items of property, plant and equipment, prepaid lease payments for land and deposits and bank balances with an aggregate carrying value of approximately HK\$182,869,000 as at 31 December 2013 are pledged to banks to secure general banking facilities granted to the Group. The Group's obligations under finance leases are secured by the lessor's charge over the leased assets.

Save as aforesaid above and apart from intra-group liabilities and normal trade bills payables arising in the ordinary course of business, at the close of business on 31 December 2013, the Group did not have any other outstanding indebtedness, loan capital, bank overdrafts and liabilities under acceptance (other than normal trade bills) or other similar indebtedness, debentures, mortgages, charges or loans or acceptance credits or hire purchase or finance lease commitment, guarantees or contingent liabilities.

The Directors confirm that, save as disclosed therein, there has not been any material change in the indebtedness, contingent liabilities and commitments of the Group since 31 December 2013.

3. WORKING CAPITAL STATEMENT

The Directors, after due and careful enquiry, are of the opinion that after taking into account of the financial resources available to the Group including the Group's internally generated funds, the currently available bank and other facilities and the estimated net proceeds from the Open Offer and in the absence of unforeseen circumstances, the Group will have sufficient working capital for its present requirements in the next twelve months from the date of this circular.

4. MATERIAL ADVERSE CHANGE

As at the Latest Practicable Date, the Directors were not aware of any material adverse change in the financial or trading position of the Group since 30 June 2013, being the date to which the latest published audited consolidated financial statements of the Group were made up.

5. FINANCIAL AND TRADING PROSPECT OF THE GROUP

As mentioned in the annual report 2013, the Group's turnover for the financial year ended 30 June 2013 was approximately HK\$601.6 million, representing a decrease of approximately 1.8% as compared to approximately HK\$612.9 million for the year ended 30 June 2012. The loss attributable to owners of the Company for the year ended 30 June 2013 was approximately HK\$415.1 million as compared to loss attributable to the owners of the Company of approximately HK\$106.1 million for the year ended 30 June 2012.

Cable and Wires

The turnover of the cables and wires business for the year ended 30 June 2013 was approximately HK\$201.4 million, representing a decrease of approximately 2.1% as compared to approximately HK\$205.8 million for the year ended 30 June 2012. During the financial year 2013, while the overall global economy was on track for a mild recovery, the economy of the PRC maintains its growth at a stable yet reduced pace. With the Group's effort to reduce costs and increase efficiency, the overall profit margins for this business segment have been improved.

The Group owned certain interests in land, factories and residential units in the PRC, including the Santai Industrial Zone with an area of approximately 72,000 sq.m., in Changping Town, Dongguan City, which generates steady rental income for the Group.

In light of the "Three Olds Reform" scheme implemented by the People's Government of Guangdong Province aiming to transform old towns, old factories and old villages to accompany the rapid economic and social development, the Group intends to make an application to transform the Santai Industrial Zone under the "Three Olds Reform" scheme. It is planned that the nature of the Zone will be changed from industrial to commercial and residential after the transformation. By then, it will become a small, hustle and bustle commercial and residential district with a touch of tranquility. The Group is proactively preparing for the project.

Copper Rod Business

The turnover of the copper rod business for the year ended 30 June 2013 was approximately HK\$397.3 million, representing a decrease of approximately 2.4% as compared to approximately HK\$407.1 million for the year ended 30 June 2012. In the financial year 2013, the international copper prices dropped significantly, with the 3-month London Metal Exchange copper price falling from approximately US\$7,600 at the beginning of the year to approximately US\$7,000 at the end of the year. The Group was cautious towards its inventory and deployed most of the capacity of its copper rod business in Dongguan to provide processing services for customers.

Mining

The Group has been engaging in mining business since 2010. For the year ended 30 June 2013, the State of Mongolia implemented the new Foreign Investment Act, including the prohibition of mineral exploration and mining operations in headwaters, reservoir preservation areas and forest regions. A new draft minerals act is also in the course of consultation for revision, which focuses on the regulations governing mineral resources in order to control or impose limited restrictions on the prosperous mining industry. The Group expects that the time required to obtain necessary approval for developing copper mine projects would increase in the future.

The Group currently has two copper mine projects under development, which are located in Dundgobi Aimag and Bayan-Ulgii Aimag.

For the copper mine project in Dundgobi Aimag, the subsidiary of the Company in Mongolia has completed the necessary environmental impact evaluation report and quarry extraction planning report before mining. It has to further carry out hydrogeological works in the mining area. Those works include impact evaluation of topography, climate, characteristics of surface water, characteristics of water aquifer and aquiclude, geological structure and fault belt on deposit water filling. The Group will also seek suitable partners to cooperate in the development and construction of Dundgobi Aimag copper mine project.

For the copper mine project in Bayan-Ulgii Aimag, the Group owned a 10% equity interest of the project. The development of the project has been progressing slowly.

The global mining industry entered into a downturn since the third quarter of 2012. According to the latest statistics released by the Mongolian Ministry of Economic Development, direct foreign investments of the State of Mongolia decreased by approximately 43% during the first half of 2013, among which direct investments in geology, mining and petroleum industries decreased by a third.

Prospects

With a slow recovery in the global economy and the steady improvement in US economy and employment for the year ended 30 June 2013, the PRC economy is expected to remain a moderate growth. The foremost economic task for the PRC government is the reform of domestic economic structures to increase reliance on domestic demand rather than on exports. Accordingly, the Group remains optimistic towards the prospects of the PRC market, and will continue to base its businesses of manufacturing and trading of cables, wires and copper products in the PRC.

In the second half of 2012, Dongguan Xin Bao Precision Chemical Company Limited, a subsidiary of the Group, began using molecular distillation technology to produce biodiesel (fatty acid methyl ester), which is a renewable energy. The project applies waste oil and greases as raw materials for production, which complies with China's relevant requirements to vigorously develop the recycling and low-carbon economy as well as building a resource-efficient and environmentally friendly society. The project is one of the major renewable energy projects encouraged and supported by the State and enjoys tax incentives such as consumption tax relief and preferential enterprise

income tax provided by the State to the industry. As prices of petrochemical diesel are rising due to a shortage of supply in the current market, profit margins for biodiesel are becoming higher as a result. This project has officially commenced production in the second quarter of 2013 with an expected annual output of up to 50,000 tons in the future.

In the face of a mild recovery of the global economy, the Group will continue to effectively devise measures for further cost control, market expansion and allocation of existing resources to stabilize the returns of its existing businesses. The Group is also optimistic about its new business in production of biodiesel and believes that this business will provide reasonable returns in long-term to the Group and the Shareholders as a whole.
